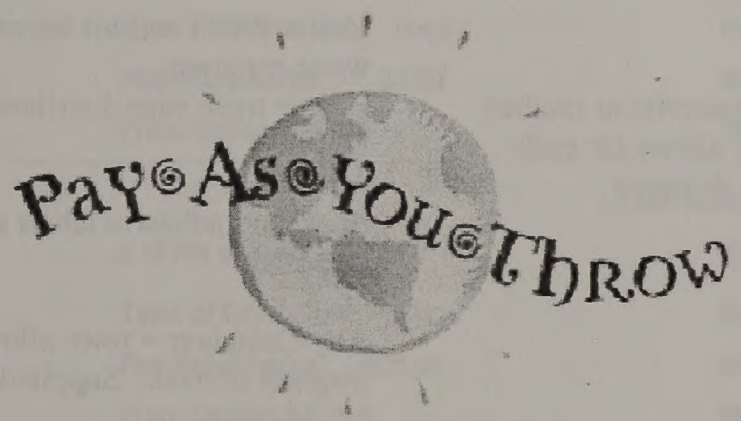
Commonwealth of Massachusetts

Municipalities with Pay-As-You-Throw Programs

UMASS/AMHERST
312066 0270 4205 8

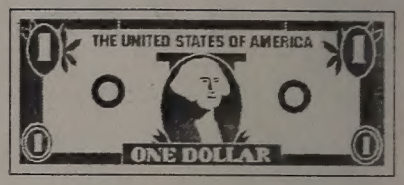


Prepared by:
Executive Office of Environmental Affairs
Department of Environmental Protection

July, 2000

KEY

Pay-As-You-Throw (PAYT) programs



Program Attribute	Description	Types
Annual Charge Type:	Method which a municipality uses to charge residents in combination with the PAYT unit fee.	▪ Flat = uniform annual fee per resident ▪ Property = solid waste costs covered as a portion of the local property tax ▪ Both = municipality charges flat AND property fee to cover solid waste costs ▪ Unit = PAYT or unit fee covers complete cost of local solid waste program
Type of Container	Kind of container(s) or method municipality allows for each unit of trash disposed	▪ Bags = trash bags distributed by municipality for disposal of trash ▪ Stickers = adhesive labels affixed to each container of trash disposed ▪ Any Container = town allows a range of containers for disposal of trash. Supplied by the resident ▪ Punch Card = resident purchases a set number of "units" that are used at local transfer station where trash is disposed
Rate System	How municipality structures their solid waste costs for solid waste collection and disposal	▪ Proportional (*) = each container of trash disposed is priced uniformly (30 gallon trash can costs $1.00 the same as 30-gallon trash bag) ▪ Variable (*) = solid waste charges fluctuate for additional units of trash disposed (for example: first unit of trash disposed may cost $1.50, but the second may be lower or higher -- $1.00 or $2.00) ▪ Two-tiered = proportional system combined with flat fee or property tax ▪ Multi-tiered – variable system combined with flat fee or property tax
(*) In both kinds of rate systems, NO flat fee or property tax is assessed for solid waste disposal by the municipality.		
Flat Fee Charge	Uniform annual fee charged to each resident or homeowner for solid waste service	
Price option #1	Unit fee charged for first unit of trash per maximum allowed volume	
Price option #2	Unit fee charged for second unit of trash per maximum allowed volume	
Basic Service	A base level of trash collection provided to every household under a PAYT system	

95 MASSACHUSETTS MUNICIPALITIES WITH UNIT-BASED PRICING

May, 2000

AMHERST Charges on yearly basis, 3rd container for $299
